To Whom It May Concern:

I write this letter today to express my full support for the Cooper Landing Trails' Town Road Planning Project (CLTRP). Federal Lands Access Program funding is critical to this project.

Hopefully the community of Cooper Landing can finally realize a plan that will provide for improved safety to residents and visitors alike that also ensures space for healthy opportunities for physical activities within the Cooper Landing community. In addition to the safety concerns there are also economic and environmental benefits that will be realized if this project were to come to fruition.

Thank you for considering this worthy request on behalf of this gem of a place on the banks of the Kenai River, Cooper Landing.

Sincerely,

John O'Brien
Superintendent
